THESIS: Prophecy is information about the future, given by GOD to whom HE selects, it is foretelling of coming events.

INTRODUCTION

It is extremely important for the true prophets to give prophecies that are fulfilled at a later time. The word prophet in the Hebrew language refers to being GOD’S spokesman. The word “seer” highlights those who have insight into GOD’S Will. GOD uses persons from dissimilar backgrounds to deliver HIS Messages; and it is paramount for all listeners to hear and distinguish between the true prophet of GOD’S Righteousness and the false prophet of deception.

Prior to the specific study of various prophetic messages, it is essential to have a stable, solid and secure Spiritual Foundation under the Guidance of the Holy Spirit. Moreover, it is necessary and imperative that prophecy be seen insightfully in the light: 1) of prophetic utterance; 2) of prophetic understanding; and 3) of prophetic unity.

I Prophetic Utterance (Revelation 1:1-3)

II Prophetic Understanding (James 1:2-8)

III Prophetic Unity (1 John 4:1-6)
