The attributes of God are those Qualities of Divine Character that belong inalienably and untransferable to Him and therefore what He is now He must ever and always be. These attributes are His perfections, inseparable from His nature and constituting His Character. They are identified as “natural” and “moral” attributes:

- a) **Natural:** all those attributes that pertain to His existence as an infinite, rational spirit.
- b) **Moral:** all those additional attributes which belong to Him as an infinite, righteous Spirit.

There are 7 Natural Attributes of God.

1. Self-existence -

2. Eternity -

**3. Unity -**

**4. Immutability -**

**5. Omnipresence -**

**6. Omnipotence -**

**7. Omniscience**

**There are 5 Moral Attributes of God.**

**1. Goodness -**

**2. Justice -**

**3. Veracity -**

**4. Wisdom -**

**5. Holiness -**
